

LEGAL SERVICES

We are a trusted partner for leading law firms and corporate legal departments, helping our clients deliver more for less and increasing the value they bring to their own clients.

Integreon offers predictable costs and outcomes, legal process re-engineering, and a scalable network of global resources delivering a full range of discovery, contract management, compliance and other LPO solutions.

WHO WE ARE

Integreon offers award-winning legal consulting and support services, including e-discovery, document review, contract management, due diligence, compliance and legal research, with options for onshore, offshore and on-site delivery.

Delegating these high-volume, often standardized tasks frees your legal professionals to focus on higher-value work. Leading law firms, investment banks, pharmaceutical companies, technology companies, corporations and many others rely on our expertise, our processes and our global network of delivery centers to help them operate more efficiently and more effectively.

WHAT WE DO

Our hybrid onshore, offshore and on-site delivery model enables around-the-clock, “follow the sun” operations across five continents, and in more than 50 languages, from delivery centers that are certified to international information security and quality management standards. Our commitment to Six Sigma and Lean principles ensures we meet the highest standards of continuous improvement and efficiency across all our locations.

IMPACT

Integreon’s high-quality, scalable services offer our clients reliable solutions that lower costs and enable client staff to focus on higher-value work. We consistently meet our client’s aggressive deployment schedules and meet or surpass their performance requirements.

ABOUT INTEGREON

Integreon is a leading global provider of legal, research, document and business support services, with 13 delivery centers around the world.
