People

Top-tier global talent to fuel innovation, deliver bespoke solutions, and implement high efficiency processes to meet client needs.

Integrated

Expertly devised, never cookie-cutter, workflows customized to meet client needs and seamlessly work within clients' corporate culture and structure.

Collaborative

Dedicated resource operating as extension of clients' teams and as a strategic enabler proactively providing insights and recommendations.

Law firms embrace a model that benefits both law firm operations and client engagements.

Solutions for Law Firm Operations

Legal Word Processing

Our experienced global team supports and meets firm standards providing a full spectrum of document support including formatting, conversion, editing, transcription, presentations, discovery documents and Table of Contents and Authorities. We operate as an extension of your support group and works with you to meet urgent client deliverable deadlines.

Creative Services

A consistent and quality presentation of your brand and related materials is essential. Integreon can provide brand compliant graphic design support for presentations, new client pitches, board-level presentations, and other design needs. Working with your marketing department, we support the scalable creative services delivery on-time and on-brand.

Knowledge & Research Management

Delivery of quality legal and business research to meet increased needs and requests. Secure delivery models and stringent in-house training programs provide clients with well executed projects across multiple areas including business information, market data gathering, and news management requests.

Solutions for Practice Area Support

Managed Document Review

Rigorous, defensible MDR services that result in predictable, high-quality responsiveness and privilege review projects on a wide range of matter types and complexities. Our global network provides foreign language support in 50+ languages and we can seamlessly work in any client preferred technology solution.

Regulatory Events

Through efficiency gaining processes, innovative technology including AI, and expert resources, Integreon helps law firms and their clients meet and prepare for regulatory requirements and changes. This includes, LIBOR cessation, CCPA, GDPR, Brexit, among others.

Cyber Incident Response

Integreon quickly mobilizes to conduct the necessary review and extraction of sensitive information to produce a clean Consolidated Entity List. Give your clients peace of mind that they can confidently comply with all state and federal notification regulations. We provide speed to compliance, without sacrificing quality or completeness.
